Work-From-Home Experiences Change Office Expectations

Isolated Zoomer

“Home office is
a lonely cage”

Autonomy- Seeker

“Home office
is freedom”

Frustrated Creative Networker

“Home office is
a suspension
from normal life
and work”

Overworked Caretaker

“Home office
is a nonstop flow
of competing
demands”

Relieved Self- Preservationist

“Home office
is the only place
I am safe”

Leaders Expect More Flexible Work Policies

Responses indicate growth in the number of leaders who expect employees will have more choice and control to work from home or elsewhere post-pandemic.

Note: Study conducted in only six countries. Countries not included: Australia, Canada, Mexico and Spain.

How Often People Expect to Work from Home

The majority of people in most countries expect to work from home one day a week or less post-pandemic.

- 1 day a week or less
- 2-3 days a week
- 4-5 days a week

Note: Due to rounding, all countries do not add up to 100%.

- **Noteworthy:** People in France and Germany expect to work from home the least. People in India expect to work from home the most.

5 Things People Need

Safety

to be safe and feel safe

Belonging

inclusion, trust and shared purpose

Productivity

to focus and collaborate

Comfort

physical, cognitive and emotional

Control

more control over where
and how they work

Safety

People's new **health**
and safety priorities.

Belonging

People want a sense of belonging and to feel part of a community at work.

Productivity

Why people
want to return to
the workplace.

Leaders

Collaboration

Expand network

Host clients

Focus

Employees

Collaboration

Access to tools

Focus

Team belonging

Comfort

People want a holistic sense of comfort and wellbeing.

They want:

- a range of postures, settings and the ability to move
- a distraction-free environment
- to reconnect to their organization's shared purpose

Physical

Cognitive

Emotional

Control

People want control over where and how they work.

54%

Want to Work From Home at least one day a week

- 1 day a week or less
- 2-3 days a week
- 4-5 days a week

A Majority Want Control

In the office, **most** workers want to be able to reconfigure their furniture

only **38%** can

experience

New Design Principles

Me + We

Fixed to Fluid

Open +
Enclosed

Braiding
Digital + Physical

Design Principles

Me + We

Design Principles

Fixed to Fluid

Create distance now or add seating in the future to increase occupancy.

Multiple large-scale devices let teams adjust based on levels of remote participation.

Multi-modal spaces allow for traditional learning or active collaboration.

Arrange space in multiple ways with movable boundaries + screens.

Design Principles

Open + Enclosed

More open collaboration options let teams adjust based on size or task.

Closed collaboration spaces offer more acoustic privacy and confidentiality.

Movable, flexible boundaries create territory in the open.

More spots for individual privacy keep distractions at bay.

Design Principles

Braiding Digital + Physical

Add collaboration
devices and access
to mobile power to
boost use.

Provide shielding
+ backgrounds for
solo video calls with
headphones.

Access to large-scale,
mobile devices in the open
lets teams work through
problems on demand.

Overall: Embed
sensors to monitor
density and utilization.
